98 = same Frameworks as previous competency 99 = "to know" statements may not be applicable

Notes: Duty bands and competencies do not need to be taught in any particular order. Competencies completed will depend on the length of the course. * Indicates duty bands composed of objectives from "Applied Foodservice Sanitation: A Certification Coursebook" by The Education Foundation of the National Restaurant Association. Permission to use these competencies on the profile granted. An asterisk (*) in the curriculum frameworks column(s) indicates all "to do" statements in that section are applicable. **NOTE: These competencies are addressed in the Missouri VICA Curriculum Guide lessons.

| **KEY:** | * = may use all "to do" statements | # = same Frameworks as previous competency |
| | 98 = same Frameworks as previous competency | 99 = "to know" statements may not be applicable |

Competency Profile Date: 1994

# Culinary Arts

***Cross-Reference to Show-Me Standards***
***(mini report with words)***

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
| | MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>MA.3: data analysis, probability and statistics<br>MA.5: mathematical systems (including real numbers, whole numbers, integers, fractions), geometry, and number theory (including primes, factors, multiples)<br>MA.6: discrete mathematics (such as graph theory, counting techniques, matrices)<br>SC.1: properties and principles of matter and energy<br>SC.2: properties and principles of force and motion<br>SC.3: characteristics and interactions of living organisms<br>SC.4: changes in ecosystems and interactions of organisms with their environments<br>SC.7: processes of scientific inquiry (such as formulating and testing hypotheses)<br>SC.8: impact of science, technology and human activity on resources and the environment<br>SS.4: economic concepts (including productivity and the market system) and principles (including the laws of supply and demand) | 3.3: Develop and apply strategies based on one's own experience in preventing or solving problems<br>3.4: Evaluate the processes used in recognizing and solving problems<br>3.5: Reason inductively from a set of specific facts and deductively from general premises<br>3.6: Examine problems and proposed solutions from multiple perspectives<br>3.7: Evaluate the extent to which a strategy addresses the problem<br>3.8: Assess costs, benefits and other consequences of proposed solutions<br>4.1: Explain reasoning and identify information used to support decisions<br>4.5: Develop, monitor and revise plans of action to meet deadlines and accomplish goals<br>4.7: Identify and apply practices that preserve and enhance the safety and health of self and others<br>4.8: Explore, prepare for and seek educational and job opportunities |
| L.8: Prepare cheese products | CA.1: speaking and writing standard English (including grammar, usage, punctuation, spelling, capitalization)<br>CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions)<br>CA.6: participating in formal and informal presentations and discussions of issues and ideas<br>FA.1: process and techniques for the production, exhibition or performance of one or more of the visual or performed arts<br>FA.2: the principles and elements of different art forms<br>FA.5: visual and performing arts in historical and cultural contexts<br>HP.1: structures of, functions of, and relationships among human body systems<br>HP.2: principles and practices of physical and mental health (such as personal health habits, nutrition, stress management)<br>HP.3: diseases and methods for prevention, treatment and control<br>HP.4: principles of movement and physical fitness<br>HP.5: methods used to assess health, reduce risk factors, and avoid high risk behaviors (such as violence, tobacco, alcohol and other drug use)<br>HP.6: consumer health issues (such as the effects of mass media and technologies on safety and health)<br>HP.7: responses to emergency situations<br>MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 1.4: Use technological tools and other resources to locate, select and organize information<br>1.5: Comprehend and evaluate written, visual and oral presentations and works<br>1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>1.7: Evaluate the accuracy of information and the reliability of its sources<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation<br>1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.1: Plan and make written, oral and visual presentations for a variety of purposes and audiences<br>2.2: Review and revise communications to improve accuracy and clarity<br>2.3: Exchange information, questions and ideas while recognizing the perspectives of others<br>2.5: Perform or produce works in the fine and practical arts<br>2.6: Apply communication techniques to the job search and to the workplace<br>2.7: Use technological tools to exchange information and ideas<br>3.1: Identify problems and define their scope and elements<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems<br>3.3: Develop and apply strategies based on one's own experience in preventing or solving problems<br>3.4: Evaluate the processes used in recognizing and solving problems<br>3.5: Reason inductively from a set of specific facts and deductively from general premises |

**KEY:** * = may use all "to do" statements # = same Frameworks as previous competency
98 = same Frameworks as previous competency 99 = "to know" statements may not be applicable

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
|  | MA.3: data analysis, probability and statistics<br>MA.5: mathematical systems (including real numbers, whole numbers, integers, fractions), geometry, and number theory (including primes, factors, multiples)<br>MA.6: discrete mathematics (such as graph theory, counting techniques, matrices)<br>SC.1: properties and principles of matter and energy<br>SC.2: properties and principles of force and motion<br>SC.3: characteristics and interactions of living organisms<br>SC.4: changes in ecosystems and interactions of organisms with their environments<br>SC.7: processes of scientific inquiry (such as formulating and testing hypotheses)<br>SC.8: impact of science, technology and human activity on resources and the environment<br>SS.4: economic concepts (including productivity and the market system) and principles (including the laws of supply and demand) | 3.6: Examine problems and proposed solutions from multiple perspectives<br>3.7: Evaluate the extent to which a strategy addresses the problem<br>3.8: Assess costs, benefits and other consequences of proposed solutions<br>4.1: Explain reasoning and identify information used to support decisions<br>4.5: Develop, monitor and revise plans of action to meet deadlines and accomplish goals<br>4.7: Identify and apply practices that preserve and enhance the safety and health of self and others<br>4.8: Explore, prepare for and seek educational and job opportunities |
| L.9: Prepare convenience products (microwave) | CA.1: speaking and writing standard English (including grammar, usage, punctuation, spelling, capitalization)<br>CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions)<br>CA.6: participating in formal and informal presentations and discussions of issues and ideas<br>FA.1: process and techniques for the production, exhibition or performance of one or more of the visual or performed arts<br>FA.2: the principles and elements of different art forms<br>FA.5: visual and performing arts in historical and cultural contexts<br>HP.1: structures of, functions of, and relationships among human body systems<br>HP.2: principles and practices of physical and mental health (such as personal health habits, nutrition, stress management)<br>HP.3: diseases and methods for prevention, treatment and control<br>HP.4: principles of movement and physical fitness<br>HP.5: methods used to assess health, reduce risk factors, and avoid high risk behaviors (such as violence, tobacco, alcohol and other drug use)<br>HP.6: consumer health issues (such as the effects of mass media and technologies on safety and health)<br>HP.7: responses to emergency situations<br>MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>MA.3: data analysis, probability and statistics<br>MA.5: mathematical systems (including real numbers, whole numbers, integers, fractions), geometry, and number theory (including primes, factors, multiples)<br>MA.6: discrete mathematics (such as graph theory, counting techniques, matrices)<br>SC.1: properties and principles of matter and energy | 1.4: Use technological tools and other resources to locate, select and organize information<br>1.5: Comprehend and evaluate written, visual and oral presentations and works<br>1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>1.7: Evaluate the accuracy of information and the reliability of its sources<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation<br>1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.1: Plan and make written, oral and visual presentations for a variety of purposes and audiences<br>2.2: Review and revise communications to improve accuracy and clarity<br>2.3: Exchange information, questions and ideas while recognizing the perspectives of others<br>2.5: Perform or produce works in the fine and practical arts<br>2.6: Apply communication techniques to the job search and to the workplace<br>2.7: Use technological tools to exchange information and ideas<br>3.1: Identify problems and define their scope and elements<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems<br>3.3: Develop and apply strategies based on one's own experience in preventing or solving problems<br>3.4: Evaluate the processes used in recognizing and solving problems<br>3.5: Reason inductively from a set of specific facts and deductively from general premises<br>3.6: Examine problems and proposed solutions from multiple perspectives<br>3.7: Evaluate the extent to which a strategy addresses the problem<br>3.8: Assess costs, benefits and other consequences of proposed solutions<br>4.1: Explain reasoning and identify information used to support decisions |

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|

**Knowledge (Content)**

CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)
CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)
CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions)
CA.6: participating in formal and informal presentations and discussions of issues and ideas
CA.7: identifying and evaluating relationships between language and culture
FA.1: process and techniques for the production, exhibition or performance of one or more of the visual or performed arts
FA.2: the principles and elements of different art forms
FA.3: the vocabulary to explain perceptions about and evaluations of works in dance, music, theater and visual arts
FA.4: interrelationships of visual and performing arts and the relationships of the arts to other disciplines
FA.5: visual and performing arts in historical and cultural contexts
HP.1: structures of, functions of, and relationships among human body systems
HP.2: principles and practices of physical and mental health (such as personal health habits, nutrition, stress management)
HP.3: diseases and methods for prevention, treatment and control
HP.5: methods used to assess health, reduce risk factors, and avoid high risk behaviors (such as violence, tobacco, alcohol and other drug use)
HP.6: consumer health issues (such as the effects of mass media and technologies on safety and health)
HP.7: responses to emergency situations
MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations
MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes
MA.3: data analysis, probability and statistics
MA.5: mathematical systems (including real numbers, whole numbers, integers, fractions), geometry, and number theory (including primes, factors, multiples)
MA.6: discrete mathematics (such as graph theory, counting techniques, matrices)
SC.1: properties and principles of matter and energy
SC.2: properties and principles of force and motion
SC.7: processes of scientific inquiry (such as formulating and testing hypotheses)
SC.8: impact of science, technology and human activity on resources and the environment
SS.2: continuity and change in the history of Missouri, the United States and the world
SS.3: principles and processes of governance systems
SS.4: economic concepts (including productivity and the market system) and principles (including the laws of supply and demand)

**Performance (Goals)**

1.4: Use technological tools and other resources to locate, select and organize information
1.5: Comprehend and evaluate written, visual and oral presentations and works
1.6: Discover and evaluate patterns and relationships in information, ideas and structures
1.7: Evaluate the accuracy of information and the reliability of its sources
1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation
1.9: Identify, analyze and compare the institutions, traditions and art forms of past and present societies
1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers
2.1: Plan and make written, oral and visual presentations for a variety of purposes and audiences
2.2: Review and revise communications to improve accuracy and clarity
2.3: Exchange information, questions and ideas while recognizing the perspectives of others
2.4: Present perceptions and ideas regarding works of the arts, humanities and sciences
2.5: Perform or produce works in the fine and practical arts
2.6: Apply communication techniques to the job search and to the workplace
2.7: Use technological tools to exchange information and ideas
3.1: Identify problems and define their scope and elements
3.2: Develop and apply strategies based on ways others have prevented or solved problems
3.3: Develop and apply strategies based on one's own experience in preventing or solving problems
3.4: Evaluate the processes used in recognizing and solving problems
3.5: Reason inductively from a set of specific facts and deductively from general premises
3.6: Examine problems and proposed solutions from multiple perspectives
3.7: Evaluate the extent to which a strategy addresses the problem
3.8: Assess costs, benefits and other consequences of proposed solutions
4.1: Explain reasoning and identify information used to support decisions
4.3: Analyze the duties and responsibilities of individuals in societies
4.4: Recognize and practice honesty and integrity in academic work and in the workplace
4.5: Develop, monitor and revise plans of action to meet deadlines and accomplish goals
4.6: Identify tasks that require a coordinated effort and work with others to complete those tasks
4.7: Identify and apply practices that preserve and enhance the safety and health of self and others
4.8: Explore, prepare for and seek educational and job opportunities

| I.8: Maintain a good professional appearance | | 4.3: Analyze the duties and responsibilities of individuals in societies |
| I.9: Perform basic tasks related to securing and terminating employment | | 2.6: Apply communication techniques to the job search and to the workplace<br>4.8: Explore, prepare for and seek educational and job opportunities |
| I.10: Perform basic parliamentary procedures in a group meeting | CA.6: participating in formal and informal presentations and discussions of issues and ideas | 4.6: Identify tasks that require a coordinated effort and work with others to complete those tasks |
| J.1: Display safe electrical working habits | | |
| J.2: Demonstrate knowledge of the basic fundamentals of electricity | | |
| J.3: Identify wiring techniques | | |
| J.4: Identify wiring components and devices | | |
| J.5: Read architectural prints and wiring plans | | |
| J.6: Identify electrical symbols and abbreviations | | |
| J.7: Determine the number and type of circuits | | |
| J.8: Divide wiring into circuits according to service and load | | |
| J.9: Determine the current-carrying capacity of circuits | | |
| J.10: Size and select circuit conductors, components, devices and outlet boxes | | |
| J.11: Determine size and type of service entrance, conductors, meter base, circuit panel and grounding system | | |
| J.12: Conform to national and local electric codes, as well as builder's specifications | | |
| J.13: Demonstrate skill in the selection, use and care of electrician's hand/power tools | | |
| J.14: Locate and install service entrance, conductors, meter base, circuit panel and grounding system | | |
| J.15: Locate and mark route of individual circuits | | |
| J.16: Install outlet boxes | | |
| J.17: Cut, bend and install electrical conduit | | |

| 04.2: Identify x-height, base-line, ascenders, descenders and their roles in measuring and designing with type [R02] | CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions) | 1.5: Comprehend and evaluate written, visual and oral presentations and works<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation |
| 04.3: *Identify caps, lowercase, uppercase, small caps and ligatures [R03] | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals) | |
| 04.4: Identify dingbats, bullets, rules and symbols and their uses in publications [R04] | CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions) | 1.5: Comprehend and evaluate written, visual and oral presentations and works<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation |
| 04.5: *Distinguish between display (headline) type and body (text) type by their point sizes and styles [R05] | MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations | 1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>2.2: Review and revise communications to improve accuracy and clarity |
| 04.6: *Explain the basic type styles and their uses [R06] | FA.1: process and techniques for the production, exhibition or performance of one or more of the visual or performed arts<br>FA.4: interrelationships of visual and performing arts and the relationships of the arts to other disciplines | 3.4: Evaluate the processes used in recognizing and solving problems<br>4.4: Recognize and practice honesty and integrity in academic work and in the workplace |
| 04.7: Explain the "weight" and "posture" of type [R07] | CA.1: speaking and writing standard English (including grammar, usage, punctuation, spelling, capitalization)<br>CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals) | 2.1: Plan and make written, oral and visual presentations for a variety of purposes and audiences<br>4.1: Explain reasoning and identify information used to support decisions |

**KEY:**
* = may use all "to do" statements
# = same Frameworks as previous competency
98 = same Frameworks as previous competency
99 = "to know" statements may not be applicable

Competency Profile Date: 1997

# Graphic Communications/Printing

***Cross-Reference to Show-Me Standards***
***(mini report with words)***

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
| | CA.7: identifying and evaluating relationships between language and culture | |
| 04.8: Define fonts and families [R08] | CA.1: speaking and writing standard English (including grammar, usage, punctuation, spelling, capitalization)<br>CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals) | 2.2: Review and revise communications to improve accuracy and clarity<br>2.3: Exchange information, questions and ideas while recognizing the perspectives of others |
| 04.9: Explain letterspacing and kerning of type characters [R09] | FA.1: process and techniques for the production, exhibition or performance of one or more of the visual or performed arts<br>FA.4: interrelationships of visual and performing arts and the relationships of the arts to other disciplines | 3.1: Identify problems and define their scope and elements<br>4.6: Identify tasks that require a coordinated effort and work with others to complete those tasks |
| 04.10: Explain word spacing and the relation of em and en in paragraph spacing [R10] | FA.3: the vocabulary to explain perceptions about and evaluations of works in dance, music, theater and visual arts | |
| 04.11: Define line spacing and explain the measurement principles for the leading of text [R11] | CA.1: speaking and writing standard English (including grammar, usage, punctuation, spelling, capitalization)<br>CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)<br>CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions) | 1.5: Comprehend and evaluate written, visual and oral presentations and works<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation |
| 04.12: *Define type arrangements: flush left/ragged right, flush right/ragged left, centered and justified [R12] | CA.1: speaking and writing standard English (including grammar, usage, punctuation, spelling, capitalization)<br>CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions) | 1.5: Comprehend and evaluate written, visual and oral presentations and works<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation |
| 05.1: *Apply production information on a job jacket/ticket [S01] | CA.1: speaking and writing standard English (including grammar, usage, punctuation, spelling, capitalization)<br>CA.2: reading and evaluating fiction, poetry and drama | 1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>4.1: Explain reasoning and identify information used to support decisions |
| 05.2: Demonstrate the basic principles of design (e.g., unity, contrast, page proportions, balance, etc.) on a given project [S02] | CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions) | 1.5: Comprehend and evaluate written, visual and oral presentations and works<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation |
| 05.3: *Identify the four basic process colors and kinds of color printing [S03] | FA.1: process and techniques for the production, exhibition or performance of one or more of the visual or performed arts<br>FA.3: the vocabulary to explain perceptions about and evaluations of works in dance, music, theater and visual arts | 3.4: Evaluate the processes used in recognizing and solving problems<br>4.4: Recognize and practice honesty and integrity in academic work and in the workplace |
| 05.4: *Identify basic desktop publishing equipment [S04] | FA.1: process and techniques for the production, exhibition or performance of one or more of the visual or performed arts<br>FA.2: the principles and elements of different art forms<br>FA.4: interrelationships of visual and performing arts and the relationships of the arts to other disciplines | 2.5: Perform or produce works in the fine and practical arts<br>2.7: Use technological tools to exchange information and ideas |
| 05.5: Explain the limitations and capabilities of desktop publishing [S05] | CA.1: speaking and writing standard English (including grammar, usage, punctuation, spelling, capitalization)<br>CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals) | 1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>2.1: Plan and make written, oral and visual presentations for a variety of purposes and audiences<br>4.1: Explain reasoning and identify information used to support decisions |

| 17.8: Maintain a good professional appearance. | | 4.3: Analyze the duties and responsibilities of individuals in societies |
| 17.9: Perform basic tasks related to securing and terminating employment. | | 2.6: Apply communication techniques to the job search and to the workplace<br>4.8: Explore, prepare for and seek educational and job opportunities |
| 17.10: Perform basic parliamentary procedure in a group meeting. | CA.6: participating in formal and informal presentations and discussions of issues and ideas | 4.6: Identify tasks that require a coordinated effort and work with others to complete those tasks |

NOTES: * = Core/essential skill, (B) = Blueprint, (M) = Math, (Sa) = Safety, (Sc) = Science, (T) = Tools. **NOTE: These competencies are addressed in the Missouri VICA Curriculum Guide lessons.

# Industrial Maintenance

## *Cross-Reference to Show-Me Standards (mini report with words)*

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
| A.1: *Develop a positive concern for safety (e.g., accident costs, safe worker attributes, agencies, factors leading to | HP.6: consumer health issues (such as the effects of mass media and technologies on safety and health) | 4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| A.2: Select the proper clothing and safety equipment for various jobs | HP.2: principles and practices of physical and mental health (such as personal health habits, nutrition, stress management) | 4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| A.3: Determine potential hazards and provide for safety (e.g., exits, fire extinguishers, telephone, power disconnect) | HP.2: principles and practices of physical and mental health (such as personal health habits, nutrition, stress management) | 3.1: Identify problems and define their scope and elements<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems<br>3.3: Develop and apply strategies based on one's own experience in preventing or solving problems<br>3.4: Evaluate the processes used in recognizing and solving problems<br>3.5: Reason inductively from a set of specific facts and deductively from general premises<br>3.6: Examine problems and proposed solutions from multiple perspectives<br>3.7: Evaluate the extent to which a strategy addresses the problem<br>3.8: Assess costs, benefits and other consequences of proposed solutions<br>4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| A.4: Prepare for safety at each work station (e.g., tool condition and storage, ventilation) | HP.2: principles and practices of physical and mental health (such as personal health habits, nutrition, stress management) | 4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| A.5: *Demonstrate the ability to perform jobs safely (e.g., fall protection, lifting, ladders, hand and power tool use, | HP.2: principles and practices of physical and mental health (such as personal health habits, nutrition, stress management) | 4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| A.6: *Demonstrate the ability to leave the shop or lab in a safe condition (e.g., cleanliness, close-down procedure) | HP.2: principles and practices of physical and mental health (such as personal health habits, nutrition, stress management) | 4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| B.1: *Use hand tools (e.g., hammers, screwdrivers, hacksaws) | SC.2: properties and principles of force and motion | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| B.2: *Use powered hand tools | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)<br>SC.2: properties and principles of force and motion | 1.5: Comprehend and evaluate written, visual and oral presentations and works<br>1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| C.1: *Perform basic math functions (add, subtract, multiply, divide) | MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations | 1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation |
| C.2: *Convert between values recorded as fractions, decimals and percents, using calculators when appropriate | MA.5: mathematical systems (including real numbers, whole numbers, integers, fractions), geometry, and number theory (including primes, factors, multiples) | 1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation<br>1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems |

# Industrial Maintenance

***Cross-Reference to Show-Me Standards***
***(mini report with words)***

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
| C.3: *Solve work-related problems involving the basic arithmetic operations using whole numbers, fractions and decimals | MA.5: mathematical systems (including real numbers, whole numbers, integers, fractions), geometry, and number theory (including primes, factors, multiples) | 1.5: Comprehend and evaluate written, visual and oral presentations and works<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation<br>1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>3.6: Examine problems and proposed solutions from multiple perspectives |
| C.4: *Read instruments that involve the metric and English systems of units, and solve occupationally specific problems | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>MA.3: data analysis, probability and statistics | 1.4: Use technological tools and other resources to locate, select and organize information<br>3.6: Examine problems and proposed solutions from multiple perspectives |
| D.1: *Interpret schematics and related symbols | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)<br>CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions) | 2.2: Review and revise communications to improve accuracy and clarity<br>2.4: Present perceptions and ideas regarding works of the arts, humanities and sciences<br>2.6: Apply communication techniques to the job search and to the workplace |
| D.2: *Interpret orthographic projections (e.g., multi-view, isometric) | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 1.5: Comprehend and evaluate written, visual and oral presentations and works<br>2.6: Apply communication techniques to the job search and to the workplace |
| D.3: Apply geometric dimensioning and tolerancing | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>MA.3: data analysis, probability and statistics<br>MA.4: patterns and relationships within and among functions and algebraic, geometric and trigonometric concepts<br>MA.5: mathematical systems (including real numbers, whole numbers, integers, fractions), geometry, and number theory (including primes, factors, multiples) | 3.6: Examine problems and proposed solutions from multiple perspectives<br>3.8: Assess costs, benefits and other consequences of proposed solutions |
| E.1: *Describe importance of record keeping (e.g., quality standards, etc.) | CA.1: speaking and writing standard English (including grammar, usage, punctuation, spelling, capitalization) | 2.2: Review and revise communications to improve accuracy and clarity |
| E.2: *Generate maintenance records (e.g., asset history, work orders, reports, preventive maintenance, calibration) | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes) | 2.5: Perform or produce works in the fine and practical arts |
| E.3: *Identify different types of data entry | CA.7: identifying and evaluating relationships between language and culture | 1.4: Use technological tools and other resources to locate, select and organize information |
| E.4: *Perform manual data entry | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes) | 1.4: Use technological tools and other resources to locate, select and organize information |
| E.5: *Perform automatic data entry | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes) | 1.4: Use technological tools and other resources to locate, select and organize information |
| E.6: *Maintain records using a computer | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes) | 1.4: Use technological tools and other resources to locate, select and organize information |
| F.1: *(Sa) Follow safety practices (e.g., rigging, lock-out, tag-out [stored energy], pinch points, rotating machinery, chemical hazards, excessive heat) | HP.2: principles and practices of physical and mental health (such as personal health habits, nutrition, stress management)<br>HP.6: consumer health issues (such as the effects of mass media and technologies on safety and health) | 4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| F.2: *(Sc) Identify laws of motion and force (e.g., horsepo | SC.2: properties and principles of force and motion | 1.10: Apply acquired information, ideas and skills to different contexts as students, worke |

**KEY:** * = may use all "to do" statements

|---|---|---|
| H.4: *(B) Identify symbols used in electronics | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)<br>CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions) | 1.5: Comprehend and evaluate written, visual and oral presentations and works<br>2.6: Apply communication techniques to the job search and to the workplace |
| H.5: *(B) Draw pictorial and schematic wiring and ladder diagrams | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)<br>CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions)<br>FA.1: process and techniques for the production, exhibition or performance of one or more of the visual or performed arts<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>MA.3: data analysis, probability and statistics | 1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>1.7: Evaluate the accuracy of information and the reliability of its sources<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation<br>1.9: Identify, analyze and compare the institutions, traditions and art forms of past and present societies<br>1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.7: Use technological tools to exchange information and ideas<br>3.1: Identify problems and define their scope and elements<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems<br>3.3: Develop and apply strategies based on one's own experience in preventing or solving problems<br>3.4: Evaluate the processes used in recognizing and solving problems |
| H.6: *Identify electronic components, their relationships and uses | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 2.6: Apply communication techniques to the job search and to the workplace |
| H.7: *Distinguish among types of electronic connectors (e.g., nine-pin, RS-232, data collection, data transmission) | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 2.6: Apply communication techniques to the job search and to the workplace |
| H.8: *(M) Use measuring devices (e.g., smaller tools, non-conductive tools, resistors, bench equipment, oscilloscope) | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)<br>SC.2: properties and principles of force and motion | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems |

**KEY:** * = may use all "to do" statements # = same Frameworks as previous competency
98 = same Frameworks as previous competency 99 = "to know" statements may not be applicable

Competency Profile Date: 1996

# Industrial Maintenance

***Cross-Reference to Show-Me Standards***
***(mini report with words)***

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
| H.9: *Distinguish between analog and digital communication signals | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>MA.6: discrete mathematics (such as graph theory, counting techniques, matrices) | 1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation<br>2.1: Plan and make written, oral and visual presentations for a variety of purposes and audiences |
| H.10: *(M) Identify and convert number systems and codes for binary, hexadecimal, octal, BCD and Cartesian coordinates | MA.5: mathematical systems (including real numbers, whole numbers, integers, fractions), geometry, and number theory (including primes, factors, multiples) | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems |
| H.11: *Interpret the six parts of logic (AND, OR, NOR, NAND, memory, truth tables) | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>CA.6: participating in formal and informal presentations and discussions of issues and ideas | 1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation |
| H.12: Describe concepts of industrial controllers (e.g., CNC, PLC, robotics) | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>CA.6: participating in formal and informal presentations and discussions of issues and ideas | 1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation |
| H.13: Identify different PLC components (e.g., racks, input-output, CPU, battery backup, EPROM, programmer, communication cables and connectors) | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 2.6: Apply communication techniques to the job search and to the workplace |
| H.14: Identify different CNC components (e.g., input-output, CPU, post processor, connection hardware) | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 2.6: Apply communication techniques to the job search and to the workplace |
| H.15: Identify basic components of robotic systems | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 2.6: Apply communication techniques to the job search and to the workplace |
| H.16: *Demonstrate basic electronic connection techniques (e.g., soldering, crimping, cable repair) | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)<br>MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>SC.1: properties and principles of matter and energy<br>SC.2: properties and principles of force and motion | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems |
| H.17: *Perform logical steps of troubleshooting on electronic systems | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals) | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>3.1: Identify problems and define their scope and elements |

KEY:
* = may use all "to do" statements
# = same Frameworks as previous competency
98 = same Frameworks as previous competency
99 = "to know" statements may not be applicable

# *Industrial Maintenance*

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
|  | MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations<br>MA.4: patterns and relationships within and among functions and algebraic, geometric and trigonometric concepts<br>SC.1: properties and principles of matter and energy<br>SC.2: properties and principles of force and motion | 3.2: Develop and apply strategies based on ways others have prevented or solved problems<br>3.3: Develop and apply strategies based on one's own experience in preventing or solving problems<br>3.5: Reason inductively from a set of specific facts and deductively from general premises<br>3.6: Examine problems and proposed solutions from multiple perspectives<br>3.7: Evaluate the extent to which a strategy addresses the problem |
| H.18: Locate PM (preventive maintenance) needs of equipment and tools | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)<br>CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>SC.1: properties and principles of matter and energy<br>SC.2: properties and principles of force and motion | 1.2: Conduct research to answer questions and evaluate information and ideas<br>1.4: Use technological tools and other resources to locate, select and organize information |
| H.19: Perform PM tasks | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)<br>MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>SC.1: properties and principles of matter and energy<br>SC.2: properties and principles of force and motion | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems |
| H.20: Log PM results | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes) | 1.4: Use technological tools and other resources to locate, select and organize information<br>2.6: Apply communication techniques to the job search and to the workplace |
| I.1: *(Sa) Follow safety practices (e.g., lock-out, tag-out, stored energy, chemical hazards, high pressure, proper coupling techniques) | HP.2: principles and practices of physical and mental health (such as personal health habits, nutrition, stress management)<br>HP.6: consumer health issues (such as the effects of mass media and technologies on safety and health) | 4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| I.2: *Identify fluids and contamination control techniques | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals) | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |

KEY: * = may use all "to do" statements # = same Frameworks as previous competency
98 = same Frameworks as previous competency 99 = "to know" statements may not be applicable

# *Industrial Maintenance*

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
|  | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>SC.1: properties and principles of matter and energy | 2.6: Apply communication techniques to the job search and to the workplace<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems |
| 1.3: *Identify laws and principles of fluid power (e.g., pressures, absolutes, gauge) | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)<br>SC.1: properties and principles of matter and energy<br>SC.2: properties and principles of force and motion | 1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>2.6: Apply communication techniques to the job search and to the workplace |
| 1.4: *(M,Sc) Demonstrate and calculate elementary force, power, speed and pressure (Pascal's law) | CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>SC.1: properties and principles of matter and energy<br>SC.2: properties and principles of force and motion | 1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>2.1: Plan and make written, oral and visual presentations for a variety of purposes and audiences<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems |
| 1.5: *Identify hydraulic components (e.g., pumps, reservoirs) | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>SC.2: properties and principles of force and motion | 2.6: Apply communication techniques to the job search and to the workplace |
| 1.6: *Identify pneumatic components (e.g., compressors, vacuum pumps) | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>SC.2: properties and principles of force and motion | 2.6: Apply communication techniques to the job search and to the workplace |
| 1.7: *(B) Sketch fluid power schematic symbols | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals)<br>CA.4: writing formally (such as reports, narratives, essays) and informally (such as outlines, notes)<br>CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions)<br>FA.1: process and techniques for the production, exhibition or performance of one or more of the visual or performed arts<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes<br>MA.3: data analysis, probability and statistics | 1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>1.7: Evaluate the accuracy of information and the reliability of its sources<br>1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation<br>1.9: Identify, analyze and compare the institutions, traditions and art forms of past and present societies<br>1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.7: Use technological tools to exchange information and ideas<br>3.1: Identify problems and define their scope and elements<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems<br>3.3: Develop and apply strategies based on one's own experience in preventing or solving problems<br>3.4: Evaluate the processes used in recognizing and solving problems |

***(mini report with words)***

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
| 02.13: *Calculate measurements of right triangles [B12] | MA.4: patterns and relationships within and among functions and algebraic, geometric and trigonometric concepts | 3.1: Identify problems and define their scope and elements |
| 03.1: *Measure using direct-reading instruments (such as scales, protractors and precision levels) [C25] | MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations | 3.6: Examine problems and proposed solutions from multiple perspectives |
| 03.2: *Measure using transfer instruments (such as plain inside and outside calipers, telescoping gages, adjustable hole gages and adjustable parallels) [C26] | MA.3: data analysis, probability and statistics | 1.4: Use technological tools and other resources to locate, select and organize information |
| 03.3: *Measure using precision measuring instruments (such as micrometers, gage blocks, verniers, dial | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 1.4: Use technological tools and other resources to locate, select and organize information |
| 03.4: Measure using surface plate instruments (such as height gages, angle plates, and sine bars and plates) [C28] | MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations | 1.4: Use technological tools and other resources to locate, select and organize information |
| 03.5: Measure using comparison instruments (such as radius gages, squares, cutter tooth gages and center | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 1.4: Use technological tools and other resources to locate, select and organize information |
| 03.6: Measure using other instruments (such as optical comparators, coordinate measuring machines [CMM]) | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 1.4: Use technological tools and other resources to locate, select and organize information |
| 03.7: Measure pitch diameters using thread wires [C31] | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 1.4: Use technological tools and other resources to locate, select and organize information |
| 04.1: *Interpret blueprints, including common drafting symbols [D02] (KSAO I-5.1, 5.2) | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals) | 1.5: Comprehend and evaluate written, visual and oral presentations and works |
| 04.2: *Make a sketch from a finished workpiece [D03] | CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions) | 1.6: Discover and evaluate patterns and relationships in information, ideas and structures |
| 04.3: Calculate tolerances and allowances [D04] | MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations | 3.5: Reason inductively from a set of specific facts and deductively from general premises |
| 04.4: *Calculate missing dimensions [D05] | MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations | 3.4: Evaluate the processes used in recognizing and solving problems |
| 04.5: Use geometric dimensioning and tolerancing [D06] (KSAO I-5.2) | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 3.4: Evaluate the processes used in recognizing and solving problems |
| 05.1: *Use Machinery's Handbook to plan work [D07] (I-2.1 thru 2.9) | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals) | 1.2: Conduct research to answer questions and evaluate information and ideas |
| 05.2: Plan sequence of part layout based on blueprint information [D08] (I-1.1, II-1.1) | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals) | 1.1: Develop questions and ideas to initiate and refine research<br>1.5: Comprehend and evaluate written, visual and oral presentations and works |
| 05.3: Plan sequence of machining operations [D09] (I-2.3 thru 2.9, II-1.1) | MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations | 3.3: Develop and apply strategies based on one's own experience in preventing or solving problems<br>3.4: Evaluate the processes used in recognizing and solving problems |

***Cross-Reference to Show-Me Standards***
***(mini report with words)***

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
| | | 3.5: Reason inductively from a set of specific facts and deductively from general premises<br>3.6: Examine problems and proposed solutions from multiple perspectives<br>3.7: Evaluate the extent to which a strategy addresses the problem<br>3.8: Assess costs, benefits and other consequences of proposed solutions |
| 06.1: *Inspect part using hand tools (such as scales, micrometers, verniers and protractors) [O01] (I-3.1) | MA.3: data analysis, probability and statistics | 1.7: Evaluate the accuracy of information and the reliability of its sources |
| 06.2: Inspect part using surface plate instruments (such as indicators, height gages, angle plates, height-transfer gages, and sine bars and plates) [O02] (I-3.1) | MA.1: addition, subtraction, multiplication and division; other number sense, including numeration and estimation; and the application of these operations and concepts in the workplace and other situations<br>MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 1.4: Use technological tools and other resources to locate, select and organize information |
| 06.3: Inspect part using optical comparator [O03] (II-3.1) | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 1.4: Use technological tools and other resources to locate, select and organize information |
| 06.4: Inspect part using CMM (coordinate measuring machines) [O04] (II-3.2) | MA.2: geometric and spatial sense involving measurement (including length, area, volume), trigonometry, and similarity and transformations of shapes | 1.4: Use technological tools and other resources to locate, select and organize information |
| 07.1: Follow a quality plan [P01] (I-3.2) | CA.5: comprehending and evaluating the content and artistic aspects of oral and visual presentations (such as story-telling, debates, lectures, multi-media productions) | 1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation |
| 07.2: Participate in capability study [P02] (II-4.1) | CA.3: reading and evaluating nonfiction works and material (such as biographies, newspapers, technical manuals) | 1.1: Develop questions and ideas to initiate and refine research |
| 07.3: Analyze the performance of a single-part production process [P03] (I-4.1) | SS.7: the use of tools of social science inquiry (such as surveys, statistics, maps, documents) | 1.1: Develop questions and ideas to initiate and refine research |
| 07.4: Analyze the performance of a production process [P04] (I-4.2) | SS.7: the use of tools of social science inquiry (such as surveys, statistics, maps, documents) | 1.1: Develop questions and ideas to initiate and refine research |
| 08.1: *Use and care for hand tools [E01] (KSAO) | SC.2: properties and principles of force and motion | 4.3: Analyze the duties and responsibilities of individuals in societies<br>4.4: Recognize and practice honesty and integrity in academic work and in the workplace |
| 08.2: *Cut materials with hand hack saw [E02] (I-2.1) | SC.1: properties and principles of matter and energy<br>SC.2: properties and principles of force and motion | 3.3: Develop and apply strategies based on one's own experience in preventing or solving problems |
| 08.3: *Mark locations with prick and center punches [E04] (I-2.1, II-2.1) | SC.2: properties and principles of force and motion | 1.5: Comprehend and evaluate written, visual and oral presentations and works |
| 08.4: Locate holes with transfer screws and transfer punches [E05] (I-2.1, II-2.1) | SC.1: properties and principles of matter and energy<br>SC.2: properties and principles of force and motion | 1.4: Use technological tools and other resources to locate, select and organize information<br>1.6: Discover and evaluate patterns and relationships in information, ideas and structures<br>1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 08.5: *Bench file/deburr workpiece [E03] | SC.2: properties and principles of force and motion | 1.4: Use technological tools and other resources to locate, select and organize information |

|---|---|---|
| 10.21: *Prepare gas metal arc weld for test [I33] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 11.1: *Demonstrate safety procedures for flux cored arc welding [O01] (C3-1) | | 2.5: Perform or produce works in the fine and practical arts<br>4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| 11.2: Describe theory of flux cored arc welding [O02] | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 11.3: *Identify, select and safely handle shielding gases for various metals [O03] (C3-3) | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.1: Plan and make written, oral and visual presentations for a variety of purposes and audiences<br>2.5: Perform or produce works in the fine and practical arts |
| 11.4: *Adjust current, voltage, pulse, wire feed rate and gas flow [O04] (C3-3, C3-4) | SC.1: properties and principles of matter and energy | 1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation<br>1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 11.5: *Identify, select and set up equipment [O05] (C3-2, C3-3) | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 11.6: *Identify and select cored wire electrodes for carbon steel and stainless steel [O06] (C3-3) | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.6: Apply communication techniques to the job search and to the workplace |
| 11.7: *Make weld in 2F position with carbon steel and cored wire (qualifies 1F position) [O07] (C3-5) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 11.8: Make weld in 3F position, vertical up, with carbon steel and cored wire [O08] (C3-5) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 11.9: *Make weld in 2G position with carbon steel and cored wire (qualifies 1G position) [O09] (C3-6) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 11.10: Make weld in 3G position, vertical up, with carbon steel and cored wire [O10] (C3-6) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 11.11: Identify welding problems, their causes and take corrective action [O11] | | 3.1: Identify problems and define their scope and elements<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems<br>3.3: Develop and apply strategies based on one's own experience in preventing or solving problems<br>3.4: Evaluate the processes used in recognizing and solving problems |
| 11.12: Prepare flux cored arc weld for test [O12] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |

| KEY: | * = may use all "to do" statements | # = same Frameworks as previous competency |

Competency Profile Date: 1995

# Welding

*Cross-Reference to Show-Me Standards*
*(mini report with words)*

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
| 12.1: *Demonstrate safety procedures for gas tungsten arc welding [J01] (C4-1) | | 2.5: Perform or produce works in the fine and practical arts<br>4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| 12.2: Describe theory of gas tungsten arc welding [J35] | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 12.3: *Identify, select and set up equipment and explain function [J02] (C4-2, C4-3) | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 12.4: *Identify, select and safely handle shielding gases [J03] (C4-3) | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.1: Plan and make written, oral and visual presentations for a variety of purposes and audiences<br>2.5: Perform or produce works in the fine and practical arts |
| 12.5: *Identify, select, shape and install tungsten electrode [J04] (C4-3) | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.6: Apply communication techniques to the job search and to the workplace |
| 12.6: *Adjust polarity, pulse, current, gas flow setting and post flow timer and strike arc [J05] (C4-3, 4-4) | SC.1: properties and principles of matter and energy | 1.8: Organize data, information and ideas into useful forms (including charts, graphs, outlines) for analysis or presentation<br>1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 12.7: Identify joint design and prepare material for weld procedure specification (WPS) [J06] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.6: Apply communication techniques to the job search and to the workplace |
| 12.8: Select filler rod for base material [J07] (C4-3) | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.6: Apply communication techniques to the job search and to the workplace |
| 12.9: Make weld in 2F position, stainless steel (qualifies 1F position) [J15] (C4-9) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.10: Make weld in 2F position, aluminum (qualifies 1F position) [J16] (C4-7) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.11: Make weld in 2F position, carbon steel (qualifies 1F position) [J17] (C4-5) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.12: Make weld in 3F position, stainless steel [J18] (C4-9) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.13: Make weld in 3F position, aluminum [J19] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |

KEY:
* = may use all "to do" statements
# = same Frameworks as previous competency
98 = same Frameworks as previous competency

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
| 12.14: Make weld in 3F position, carbon steel [J20] (C4-5) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.15: Make weld in 2G position, stainless steel (qualifies 1G position) [J27] (C4-10) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.16: Make weld in 2G position, aluminum (qualifies 1G position) [J28] (C4-8) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.17: Make weld in 2G position, carbon steel (qualifies 1G position) [J29] (C4-6) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.18: Make weld in 3G position, vertical up, on stainless steel [J30] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.19: Make weld in 3G position, vertical up, on aluminum [J31] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.20: Make weld in 3G position, vertical up, on carbon steel [J32] (C4-6) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.21: Make weld in 4G position with carbon steel [J36] (C4-6) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 12.22: Identify gas tungsten arc welding problems, their causes and take corrective action [J33] (C4-2) | | 3.1: Identify problems and define their scope and elements<br>3.2: Develop and apply strategies based on ways others have prevented or solved problems<br>3.3: Develop and apply strategies based on one's own experience in preventing or solving problems<br>3.4: Evaluate the processes used in recognizing and solving problems |
| 12.23: Prepare gas tungsten arc weld for test [J34] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 13.1: *Demonstrate safety procedures for plasma cutting [K01] (E2-1) | | 2.5: Perform or produce works in the fine and practical arts<br>4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| 13.2: *Describe theory of plasma cutting [K10] | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 13.3: *Set up and operate plasma cutting equipment [K02] (E2-3, E2-4) | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 13.4: *Lay out and make straight line cuts [K03] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, worke |

| Duty Band and Task Statement | Knowledge (Content) | Performance (Goals) |
|---|---|---|
| | | rs, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 13.5: 'Lay out and make bevel cuts [K04] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 13.6: Lay out and make circular cuts [K05] (E2-5) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 13.7: Lay out and make pattern cuts [K06] (E2-5) | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 13.8: Lay out, cut and bevel pipe to a 30-37 1/2 degree angle [K07] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 13.9: 'Lay out and cut square and round solid stock [K08] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 14.1: 'Demonstrate safety procedures for metallurgy and heat treating [L01] | | 2.5: Perform or produce works in the fine and practical arts<br>4.7: Identify and apply practices that preserve and enhance the safety and health of self and others |
| 14.2: Identify the classification and physical properties of ferrous and nonferrous metals [L02] | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 14.3: Identify and apply principles of preheating and postheating [L03] | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 14.4: Describe and apply principles of metallurgy in annealing, hardening and tempering [L04] | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts |
| 14.5: Describe methods of testing metals [L05] | | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers |
| 14.6: Identify types of ferrous metal by spark test [L06] | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>2.5: Perform or produce works in the fine and practical arts<br>4.1: Explain reasoning and identify information used to support decisions |
| 14.7: Describe the relationship between the hardness test of weld, heat-affected zone and base metal, and interpret the results [L07] | SC.1: properties and principles of matter and energy | 1.10: Apply acquired information, ideas and skills to different contexts as students, workers, citizens and consumers<br>3.5: Reason inductively from a set of specific facts and deductively from general premises |
| 15.1: 'Demonstrate safety procedures for carbon arc gouging [M01] (E1-1) | | 2.5: Perform or produce works in the fine and practical arts |

**KEY:** ' = may use all "to do" statements # = same Frameworks as previous competency
98 = same Frameworks as previous competency 99 = "to know" statements may not be applicable
